

Milan Seniors for Healthy Living

...Where we get better with age.

Cost Allocation Plan

Purpose/ General Statements

The purpose of this cost allocation plan is to summarize, in writing, the methods and procedures that this organization will use to allocate costs to various programs, grants, contracts and agreements. OMB Circular A-122, "Cost Principles for Non-Profit Organizations," establishes the principles for determining costs of grants, contracts and other agreements with the Federal Government. Milan Seniors for Healthy Living (MSHL) Cost Allocation Plan is based on the Direct Allocation method described in OMB Circular A-122. The Direct Allocation Method treats all costs as direct costs except general administration and general expenses.

Direct costs are those that can be identified specifically with a particular final cost objective. Indirect costs are those that have been incurred for common or joint objectives and cannot be readily identified with a particular final cost objective.

Only costs that are allowable, in accordance with the cost principles, will be allocated to benefiting programs by MSHL.

General Approach

The general approach of MSHL in allocating costs to particular grants and contracts is as follows:

- A. All allowable direct costs are charged directly to the programs, grants, activity, etc.
- B. Allowable direct costs that can be identified to more than one program are prorated individually as direct costs using a base most appropriate to the particular cost being prorated.
- C. All other allowable general and administrative costs (costs that benefit all programs and cannot be identified to a specific program) are allocated to programs, grants, etc. using a base that results in an equitable distribution.

Allocation of Costs

The following information summarizes the procedures that will be used by MSHL beginning 6/1/2017:

- A. Compensation for Personal Services – Documented with timesheets showing time distribution for all employees and allocated based on time spent on each program or grant. Salaries and wages are charged directly to the program for which work has been done. Costs that benefit more than one program will be allocated to those programs based on the ratio of each program's salaries to the total of such salaries (see Example 1). Costs that benefit all programs will be allocated based on the ratio of each program's salaries to total salaries (see Example 2).
 1. Fringe benefits (FICA, UC, and Worker's Compensation) are allocated in the same manner as salaries and wages. Health insurance, dental insurance, life & disability and other fringe benefits are also allocated in the same manner as salaries and wages.
 2. Personal Time Off is allocated in the same manner as salaries and wages.
- B. Travel Costs – Allocated based on purpose of travel. All travel costs (local and out-of-town) are charged directly to the program for which the travel was incurred. Travel costs that benefit more than one program will be allocated to those programs based on the ration of each

Milan Seniors for Healthy Living

...Where we get better with age.

- program's salaries to the total of such salaries (see Example 1). Travel costs that benefit all programs will be allocated based on the ratio of each program's salaries to total salaries (see Example 2)
- C. Professional Services Costs (such as consultants, accounting and auditing services) – Allocated to the programs benefiting from the service. All professional service costs are charged directly to the program for which the service was incurred. Costs that benefit more than one program will be allocated to those programs based on the ratio of each programs expenses to the total of such expenses (see Example 3). Costs that benefit all programs will be allocated based on the ration of each program's expenses to total expenses (see Example 4)
 - D. Office Expense and Supplies (including office supplies and postage) – Allocated based on usage. Expenses used for a specific program will be charged directly to that program. Postage expenses are charged directly to programs to the extent possible. Costs that benefit more than one program will be allocated to those programs based on the ratio of each program's expenses to the total of such expenses (see Example 3). Costs that benefit all programs will be allocated based on the ratio of each program's expenses to total expenses (see Example 4).
 - E. Equipment – MSHL depreciates equipment when the initial individual acquisition cost exceeds \$2,000. Items below \$2,000 are reflected in the supplies category and are expensed in the current year. Unless allowed by the awarding agency, equipment purchases are recovered through depreciation. Depreciation costs for allowable equipment used solely by one program are charged directly to the program using the equipment. If more than one program uses the equipment, then an allocation of the depreciation costs will be based on the ratio of each program's expenses to the total of such expenses (see Example 3). Costs that benefit all programs will be allocated based on the ration of each program's expenses to total expenses (see Example 4).
 - F. Printing (including supplies, maintenance and repair) – Expenses are charged directly to programs that benefit from the service. Expenses that benefit more than one program are allocated based on the ratio of the costs to total expenses. Costs that benefit more than one program will be allocated to those programs based on the ratio of each program's expenses to the total of such expenses (see Example 3). Costs that benefit all programs will be allocated based on the ratio of each program's expenses to total expenses (see Example 4).
 - G. Insurance – Insurance needed for a particular program is charged directly to the program requiring the coverage. Other insurance coverage that benefits all programs is allocated based on the ratio of each program's expenses to total expenses (see Example 4).
 - H. Telephone/Communication – Telephone or communication expenses that benefit more than one program will be allocated to those programs based on the ratio of each program's expenses to the total expenses (see Example 3). Costs that benefit all programs will be allocated based on the ratio of each programs expenses to total expenses (see Example 4).
 - I. Facilities Expenses – allocated based upon usable square footage. The ratio of total square footage used by all personnel to total square footage is calculated. Facilities costs related to general and administrative activities are allocated to programs based on the ratio of program square footage to total square footage (see Example 5).
 - J. Training /Conference/Seminars/Professional Development – Allocated to the program benefiting from the training/conference/seminar/professional development. Costs that

Milan Seniors for Healthy Living

...Where we get better with age.

benefit more than one program will be allocated to the programs based on the ratio of each programs' salaries to the total of such salaries (see Example 1). Costs that benefit all programs will be allocated based on the ratio of each program's salaries to total salaries (see Example 2).

- K. Other Costs (including dues, licenses, fees, etc.) – Other joint costs will be allocated on a basis determined to be appropriate to the particular costs. (methodology for applicable costs to be determined depending upon the cost).
- L. Unallowable Costs – Costs that are unallowable in accordance with OMB Circular A-122, including alcoholic beverages, bad debts, advertising (other than help-wanted ads), contributions, entertainment, fines and penalties. Lobbying and fundraising costs are unallowable, however, are treated as direct costs and allocated their share of general and administrative expenses.

Examples of Allocation Methodology:

Example 1:

Expense Amount = \$5,000

Costs that benefit two or more specific programs, but not all programs, are allocated to those programs based on the ratio of each program's personnel costs (salaries & applicable benefits) to the total of such personnel costs, as follows:

Grant	Personnel Costs	%	Amount Allocated
A	\$20,000	20%	\$1,000
C	\$30,000	30%	\$1,500
E	\$50,000	50%	\$2,500
Total	\$100,000	100%	\$5,000

Example 2:

Expense Amount = \$10,000

Cost that benefit all programs are allocated based on a ratio of each program's personnel costs (salaries & applicable benefits) to total personnel costs as follows:

Grant	Personnel Costs	%	Amount Allocated
A	\$20,000	13%	\$1,300
B	\$10,000	7%	\$ 700
C	\$30,000	20%	\$2000
D	\$40,000	27%	\$2700
E	\$50,000	33%	\$3300
Total	\$150,000	100%	\$10,000

Example 3:

Expense Amount = \$4,000

Costs that benefit two or more specific programs, but not all programs, are allocated to those programs based on the ratio of each program's expenses (direct costs other than salaries & benefits) to the total of such expenses, as follows:

Milan Seniors for Healthy Living

...Where we get better with age.

Grant	Program Expenses	%	Amount Allocated
A	\$120,000	30%	\$1200
C	\$130,000	33%	\$1320
E	\$150,000	37%	\$1480
Total	\$400,000	100%	\$4000

Example 4:

Expense Amount = \$8,000

Costs that benefit all programs will be allocated based on a ratio of each program's salaries to total salaries as follows:

Grant	Program Expenses	%	Amount Allocated
A	\$120,000	18%	\$1440
B	\$110,000	17%	\$1360
C	\$130,000	20%	\$1600
D	\$140,000	22%	\$1760
E	\$150,000	23%	\$1840
Total	\$650,000	100%	\$8,000

Example 5:

Facilities Expense Amount = \$10,000

Facilities costs are allocated based on square footage. Square footage for each program and general and administrative activity is considered in the analysis. General and administrative facilities costs are further allocated to each program based on the square footage of each grant program to the total square footage of all grant programs. The calculation is as follows:

Grant	Square Footage	%	Amount Allocated	G&A Allocated	Total Amount Allocated
A	300	30%	\$3000	\$340	\$3340
B	100	10%	\$1000	\$110	\$1110
C	200	20%	\$2000	\$220	\$2220
D	200	20%	\$2000	\$220	\$2220
E	100	10%	\$1000	\$110	\$1110
G&A	100	10%	\$1000	0	0
Total	1000	100%	\$10,000	\$1000	\$10,000
